

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claim 1 (Previously Presented): A gaming device comprising:  
a controller;  
a display device connected to said controller;  
at least one reel displayed by said display device;  
at least one symbol displayed on said reel;  
means connected to the controller for selecting one of said symbols; and  
at least one payable display for said selected symbol stored in said controller;  
whereby selecting said symbol causes said controller to cause said display device to display a payable display for said selected symbol.

Claim 2 (Previously Presented): The gaming device of Claim 1, which includes a plurality of reels controlled by said controller and a plurality of symbols displayed on the plurality of reels.

Claim 3 (Original): The gaming device of Claim 1, wherein said symbol selection means includes a touch screen connected to said controller.

Claim 4 (Original): The gaming device of Claim 1, wherein said symbol selection means includes at least one digital input device.

Claim 5 (Original): The gaming device of Claim 2, wherein each of said plurality of symbols is associated with at least one payable display.

Claim 6 (Previously Presented): The gaming device of Claim 5, wherein said at least one payable display includes a plurality of displays, and wherein each of said plurality of displays contains different payable information from each of the other of said plurality of displays.

Claim 7 (Previously Presented): The gaming device of Claim 6, which includes means for selecting one of said plurality of displays.

Claim 8 (Original): The gaming device of Claim 2, wherein at least one payable display includes payable information on a plurality of said symbols.

Claim 9 (Cancelled)

Claim 10 (Cancelled)

Claim 11 (Previously Presented): A method of providing payable information for a gaming device comprising the steps of:

- (a) displaying at least one symbol on at least one reel controlled by a controller of said gaming device;
- (b) enabling a player to select said symbol; and
- (c) displaying at least one payable associated with said selected symbol when the player selects said symbol.

Claim 12 (Previously Presented): The method of Claim 11, wherein displaying at least one payable includes displaying a portion of the payable for said selected symbol.

Claim 13 (Previously Presented): The method of Claim 11, wherein displaying at least one payable includes displaying a plurality of paytables and ~~the step of~~ sequencing said paytables according to a sequence contained in said controller.

Claim 14 (Previously Presented): The method of Claim 11, wherein displaying at least one payable includes displaying a plurality of paytables for a plurality of symbols.

Claim 15 (Previously Presented): The method of Claim 11, wherein displaying at least one payable includes the step of enabling said player to select one of a plurality of means for selecting a single payable.

Claim 16 (Previously Presented): The gaming device of Claim 4, wherein said digital input device is selected from the group consisting of a cursor, a joystick, a mouse, a light pen, a light detector, a plurality of push buttons, a roller, and a selector.

Claim 17 (Previously Presented): The gaming device of Claim 4, wherein said symbol selection means includes a remote control.

Claim 18 (Previously Presented): The gaming device of Claim 17 48, which includes a plurality of symbols, and wherein said remote control includes a separate selector for each of said plurality of symbols.

Claim 19 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes payout information for combinations of symbols containing the selected symbol.

Claim 20 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes at least one bonus triggering combination of symbols containing the selected symbol.

Claim 21 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes substitute information involving the selected symbol.

Claim 22 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes scatter pay information involving the selected symbol.

Claim 23 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes multiplier information involving the selected symbol.

Claim 24 (Previously Presented): The gaming device of Claim 1, wherein said payable display includes payout information for the selected symbol.

Claim 25 (Previously Presented): The gaming device of Claim 1, wherein the display device includes a secondary display, and wherein said payable display is displayed on said secondary display.

Claim 26 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying a payable containing payout information for combinations of symbols containing the selected symbol.

Claim 27 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying bonus triggering combinations of symbols containing the selected symbol.

Claim 28 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying substitute information involving the selected symbol.

Claim 29 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying scatter pay information involving the selected symbol.

Claim 30 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying multiplier information involving the selected symbol.

Claim 31 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes a selector for displaying all payout information for the selected symbol.

Claim 32 (Previously Presented): The method of Claim 15, wherein said plurality of means for selecting a single payable includes an area of a touch screen adapted to send in input to the controller.

Claim 33 (Previously Presented): The method of Claim 13, wherein the step of sequencing said paytables according to a sequence contained in said controller includes a timed sequential display of each of said paytables.

Claim 34 (Previously Presented): A gaming device comprising:  
a plurality of reels;  
a plurality of symbols on said reels;  
a display device for displaying said reels and symbols;  
a touch screen connected to the display device for enabling a player to select at least one of said symbols;  
a payable display for at least one of said symbols; and  
a processor operable to cause the display device to display the payable display for said symbol when said symbol is selected by the player.

Claim 35 (Previously Presented): The gaming device of Claim 34, which includes a plurality of paytables for said symbols.

Claim 36 (Previously Presented): The gaming device of Claim 34, which includes a separate payable for each symbol.

Claim 37 (Previously Presented): A gaming device comprising:  
a plurality of reels having a plurality of symbols;  
a payable associated with said symbols;  
a display device operable to display said reels, symbols and payable;  
a symbol selector; and  
a processor operable to cause said display device to display said symbols and upon player selection of one of said symbols using the symbol selector, cause the display device to display a part of the payable associated with said symbol.

Claim 38 (Previously Presented): The gaming device of Claim 37, wherein the symbol selector includes a touch screen.

Claim 39 (Previously Presented): A method of operating a gaming device, said method comprising:

displaying a plurality of reels and a plurality of symbols on the reels;  
enabling a player to select one of the symbols; and  
displaying a part of payable associated with the selected symbol upon the player selection of said symbol.

Claim 40 (Previously Presented): The method of Claim 39, wherein the part of the payable associated with each symbol includes all winning combinations of said symbol.

Claim 41 (Previously Presented): The method of Claim 40, wherein the part of the payable associated with each symbol includes all awards associated with the winning combinations of said symbol.

Claim 42 (Previously Presented): A gaming device comprising:

- a processor;
- a display device controlled by said processor;
- a memory connected to said processor, said memory storing at least one payable that is associated with a symbol;
- at least one reel displayed by said display device, said reel displaying said symbol; and
- a symbol selection device configured to enable selection of said symbol by a player, wherein the processor is configured to retrieve at least a portion of said payable from the memory and cause the display device to display said payable associated with said symbol upon selection of said symbol by the player.

Claim 43 (Previously Presented): The gaming device of Claim 42, wherein said symbol selection device includes a touch screen.

Claim 44 (Previously Presented): A gaming device comprising:

- a plurality of reels having a plurality of symbols;
- a payable associated with said symbols;
- a display device operable to display said reels, symbols and payable;
- a symbol selector; and
- a processor operable to cause a random generation of a plurality of said symbols, cause said display device to display said randomly generated symbols and upon player selection of one of said symbols using the symbol selector, cause the display device to display a part of the payable associated with said symbol.

Claim 45 (Previously Presented): The gaming device of Claim 44, wherein the symbol selector includes a touch screen.

Claim 46 (Previously Presented): A method of operating a gaming device having a plurality of symbols, said method comprising:

displaying a plurality of reels and a plurality of randomly generated symbols on the reels from said plurality of symbols;

enabling a player to select one of the randomly generated symbols; and

displaying a part of payable associated with one of the randomly generated symbols upon the player selection of said randomly generated symbol.

Claim 47 (Previously Presented): The method of Claim 46, wherein the part of the payable associated with each randomly generated symbol includes all winning combinations of said randomly generated symbol.

Claim 48 (Previously Presented): The method of Claim 46, wherein the part of the payable associated with each randomly generated symbol includes all award associated with the winning combinations of said randomly generated symbol.

Claim 49 (Newly Added): A gaming device comprising:

a game operable upon a wager by a player;

a plurality of reels in the game;

a plurality of symbols on each of the reels;

at least one payline associated with the reels;

a plurality of different winning combinations of said symbols;

a plurality of awards, each award resulting from one of said winning combinations of symbols occurring on said payline;

means for enabling a player to select one of the symbols on the reels; and

a display device operable to display said reels, symbols, payline, and winning combinations of symbols, wherein upon the player selecting one of said symbols, the display device displays a table of the winning combinations of symbols which include said selected symbol over at least part of the displayed reels.
